

Proactively Manage Your Inventory

Inventory Manager

We know that your investment in Rx inventory is the highest line-item on your balance sheet. Pharmacies are facing profitability challenges, such as eroding margins and increasing operating expense pressure. Add the desire to spend more time with your patients, and it's hard to balance your priorities—until now.

Proactively manage your inventory

Inventory Manager is a web based program that helps effectively manage a pharmacy's largest asset — Rx inventory. Inventory Manager helps pharmacies achieve an improved product mix which increases cash flow, improves store customer service levels and reduces expired goods expense.

Inventory Manager refines replenishment and gives you a consistent, automated ordering system with minimal manual intervention.

A pharmacy can review the daily Inventory Manager suggested order upon demand. Dynamic order points are updated daily for each Rx item to account for demand and seasonal changes. Therefore, Inventory Manager is helping pharmacies achieve a more balanced, cleaner inventory based on actual dispensing activity.

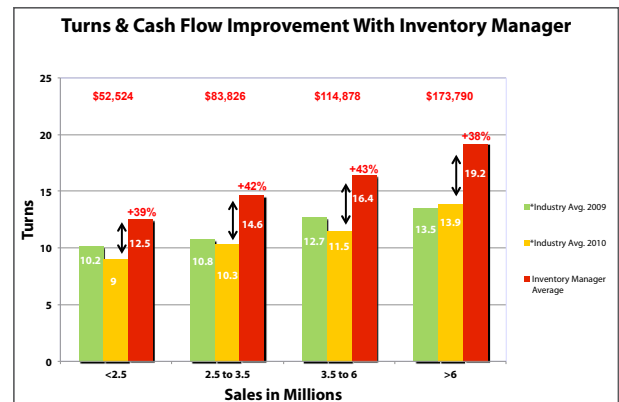

Inventory Manager streamlines perpetual inventory and helps maintain accurate on-hand values at the NDC, therapeutic and group level. Real-time dispensing data along with Cardinal Health invoices and return credits automatically update on-hand values through Inventory Manager. A quick adjust feature simplifies exceptions like outdates or waste.

Benefits

Inventory Manager is a sophisticated, web-based, perpetual, auto-replenishment inventory control solution that will:

- Reduce excess inventory
- Improve customer service level through a more efficient product mix
- Decrease outdates
- Provide automated ordering
- Promote consistent inventory control with sophisticated reporting capabilities

For more information, please contact your Cardinal Health sales consultant.

"I believe that deciding to use Inventory Manager has been the single best business decision that we have made for our two pharmacies. With margins shrinking daily, getting a handle on our biggest expense—inventory—has kept us in the game when other independents are closing their doors."

Jana Bennett, Owner
The Medicine Shoppe
Sherman, TX

"I couldn't live without Inventory Manager! ... Inventory Manager keeps the right product on my shelves at the right time. My service level is at 99.88 percent. Inventory Manager has helped me to achieve my goal of providing the highest level of service to my customer as possible."

Greg Fisher, Owner
Professional Pharmacy
Pottstown, PA
